

WAKOL RV 105 Neoprene Dilution

Technical Information

Area of application

Solvent mixture for producing a primer from WAKOL Neoprene Adhesives and for cleaning tools.

Technical data

Raw material base:	organic solvent mixture
Mixture:	1 part WAKOL RV 105 + 1 part WAKOL neoprene adhesive
Storage temperature:	store in a cool place; not sensitive to frost
Storage time:	approx. 24 months in tightly sealed containers
Danger classification according to GefStoffV:	see Material Safety Data Sheet
Giscode:	not applicable

Usage

To produce a primer, homogeneously blend 1 part Neoprene Adhesive with 1 part WAKOL RV 105 Neoprene Dilution in a clean and solvent-resistant container.

The mixture is ready for use at once. For usage, the specifications of the Technical Information for WAKOL NE 425 Contact Adhesive apply analogously.

Contaminated tools should be cleaned as soon as possible after use. With reaction adhesives, equipment must be cleaned before adhesive hardens.

Important

We guarantee the uniform high quality of our products. All data is based on tests and many years of practical experience and refers to standardised conditions. The variety of materials used and the different construction site conditions, which lie beyond our control, preclude any claims based on this data. We therefore recommend making sufficient trials. Accompanying flooring manufacturer's instructions and the currently applicable codes must be observed. We gladly provide technical advice.

The product data sheets can be found in their latest version at www.wakol.com

This Technical Information of 12.07.2012 supersedes all previous versions.
